

# Payment. Transformed.

Today, healthcare practitioners are under many pressures, such as higher overall administrative costs and claim payments taking exceedingly long to be paid, thus delaying Providers' access to their funds. One way to provide some relief is to transform check based payments into ePayments.

Pay-Plus® Solutions provides you with the latest in secure electronic payment technology which will significantly accelerate and improve efficiency to your payment process.

Pay-Plus delivers a dramatic savings of time and money by replacing traditional paper checks with its secure electronic payment services, including Electronic Funds Transfer (EFT) and Electronic Remittance Advice (ERA).

## BENEFITS OF THE PAY-PLUS® SOLUTION

### Improve Cash Flow

Get paid an average of 11 days faster than traditional check based processing and payment. Pay-Plus helps you gain greater control over the destination and delivery of claim payments for your practice.

### Aggregation of Multiple Payor's Payments

Pay-Plus Membership eliminates frustrations associated with receiving multiple Payor data feeds in varying formats. When possible Pay-Plus consolidates claims payments daily from various Payors into one single payment and one single data feed.

### Pursue Secondary Billings Faster

Secondary billings to other insurers or patients happens more quickly, further improving cash flow.

### Eliminate Banking Fees

Eliminate bank deposit or lockbox fees! Fast and secure payments are pushed directly into your designated bank account or through your credit card terminal.

### Reduce Administrative Costs

Overhead costs to maintain and reconcile check based payments are increasing. Pay-Plus can help you reduce these costs, allowing you and your staff to focus their time on patient care.

### Eliminate Re-keying of Remittance Data

Electronic remittance advices and data may be imported directly into practice management or health information systems, eliminating the need for manual re-keying or risk of keying error.

# EASY TO USE. EASY TO GET STARTED.

There are three different ways you may take advantage of Pay-Plus Solutions.

1

## Pay-Plus® Select

Select payments utilize a MasterCard branded, reloadable, virtual credit card which is faxed to the Provider. The Provider inputs the virtual credit card information into their credit card terminal to receive immediate payment for that claim. Each Select fax represents one claim payment.

2

## Pay-Plus® Select Plus

SelectPlus payments utilize a unique terminal emulation process, allowing a MasterCard branded, reloadable, virtual credit card to be automatically pushed each day to the Provider's Merchant Account. Payments, when possible, are aggregated to simplify the balancing of payments to EOP.

3

## Pay-Plus® Direct

Direct payments utilize Automated Clearing House (ACH) payment rails, directly depositing a consolidated payment into the Provider's Bank Account via UMB Bank, our FDIC insured depository partner.

**Each Pay-Plus product gives the Provider multiple options to access their data and customize notifications, as well as utilize a number of other features via our secure web portal.**
